

Light, Speed. Everywhere

When you need superior mobility with zero compromise on connectivity, there can only be one choice: Thuraya IP+. The lightest, fastest satellite broadband terminal in its class, Thuraya IP+ can be deployed from backpack to broadband in a matter of seconds, providing reliable broadband access within locations covered by Thuraya's congestion-free satellite network.

Work. Email. Surf. Skype. Facebook. Anywhere.

The high-speed IP capabilities of Thuraya IP+ enable users to access corporate networks and connect with colleagues, family and friends via email, social media and VoIP applications – wherever and whenever they need it.

Providing 'always-on' mobile broadband access, Thuraya IP+ is ideal for a wide range of mission-critical operations such as broadcast media, defense, telemedicine and disaster response. With Thuraya IP+, broadcasters are also equipped with high-speed IP streaming connections to ensure that their video feeds can be transmitted back to their studios in the most optimized manner.

Thuraya IP+. The world's most compact and powerful satellite data terminal.
